## ALLIANCE RESOURCE PARTNERS, L.P.

### Announces Agreement to Acquire Oil and Gas Mineral Interests and Development of Excel Mine No. 5

TULSA, OKLAHOMA, December 17, 2018 – Alliance Resource Partners, L.P. (NASDAQ: ARLP) today announced that it has entered into definitive agreements to acquire the general partner interests in AllDale Minerals, LP and AllDale Minerals II, LP (collectively "AllDale") and all of the limited partner interests in AllDale not currently owned by ARLP's affiliate, Cavalier Minerals JV, LLC ("Cavalier") (collectively the "Partnership Interests"). "Today's announcements reflect ARLP's commitment to continually invest in our business to build and support long-term cash flows," said Joseph W. Craft III, President and Chief Executive Officer. "The AllDale acquisition gives ARLP control of a significant ownership position in the oil and gas minerals sector and lays the foundation for a new growth platform for the future. Development of the Excel Mine No. 5 supports ARLP's ongoing commitment to the coal sector and will allow ARLP to maintain its regional diversity as well as provide the opportunity to retain and grow its market share in both the domestic and international coal markets for this highly-valued low sulfur, high BTU product. Upon completion, both of these strategic investments are expected to be accretive to cash flow and create long-term value for our unitholders."

ARLP will acquire the Partnership Interests for a cash purchase price of \$175.96 million, which will be funded with cash on hand and borrowings under its credit facility. The agreements provide for an effective date of November 1, 2018 and the transaction is expected to close in early January 2019.

In addition, ARLP also owns approximately 3,950 net royalty acres through its limited partner interest in AllDale Minerals III, LP.

### **Excel Mine No. 5 Development**

ARLP has begun development activity for the Excel Mine No. 5 and currently anticipates deploying total capital of approximately \$45.0 million to \$50.0 million over the next 18 to 24 months. ARLP's subsidiary, MC Mining, LLC ("MC Mining"), controls the estimated 15 million tons of coal reserves assigned to the Excel Mine No. 5 and will own the new mining complex, and our Excel Mining, LLC subsidiary will conduct all mining operations. The underground operation will utilize continuous mining units employing room-and-pillar mining techniques and annual production capacity is expected to be approximately 1.3 million tons of high BTU, low-sulfur coal.

MC Mining plans to utilize its existing underground mining equipment and preparation plant to produce and process coal from the Excel Mine No. 5 and expects to ship coal produced from the mine to various transloading facilities on the Ohio River and the Big Sandy River for barge deliveries or directly to customers via the CSX railroad and by truck. MC Mining expects to transition its current workforce to the Excel Mine No. 5 and will continue to employ approximately 211 workers.

The development plan for the Excel Mine No. 5 is designed to provide a seamless transition from the current MC Mining operation as its reserves deplete in 2020.
